

+++ The most important message in 2012 for outdoor energy distribution +++ The most important m

om GSAB +++ The new standard cabinets with the depth of 470mm are now available from GSAB +

Based on the standard system of cabinet heights 1000 and 1300 mm (without stand) in the widths 805, 1135 and 1465 mm (with depth 320mm) GSAB delivers from now also all variants of the cabinets with width 805 and 1135 mm with a depth of **470 mm!**

The cabinets (with depths 470 mm) are available with separately lockable doors or double doors (1/3-2/3) left or right.

The innovative attachment system with rails on the rear of the cabinet was also applied for cabinet with depth 470 mm.
